

FRONTIERS ABROAD REFERENCE GUIDE

Thank you for agreeing to provide a reference!

Your student is applying to Frontiers Abroad's the Geology of New Zealand Program, an geologic program that combines a 5-week field camp with a campus semester at the University of Canterbury. Please provide a reference for the applicant that addresses their academic strengths and weaknesses, ability to work in teams, enthusiasm, maturity, and ability to live in a small group for an extended period of time. FA offers rigorous abroad programs – we are looking for students interested in New Zealand Geology – not a semester off!

Please email the reference to Sam Hampton at Sam@frontiersabroad.com

Thank you and we appreciate your time,

The Frontiers Abroad Team
